Expression	Expected Value	Calculated Value	Reason for Calculated Value
min(25,4)	4	4	Function returns the smallest of the two arguments
max(25,4)	25	25	Function returns the biggest argument of the two arguments
min(25,max(27,4))	25	25	The inner function returns the biggest of the two arguments and the value obtained is parsed to the outer argument which return the smallest argument of the two new arguments
abs(25)	25	25	Function returns the magnitude of the argument parsed
abs(-25)	25	25	Function returns the magnitude of the argument parsed
round(25.6)	26	26	Function rounds off the argument to nearest integer
round(-25.6)	-26	-26	Function rounds off the argument to the nearest integer
round(25.64,0)	26	26	Function rounds off the argument to zero decimal places to the nearest integer
round(25.64,1)	25.6	25.6	Function rounds off the argument to one decimal place.
round(25.64,2)	25.64	25.64	Function rounds off the argument to 2 decimal places
len('Truth')	5	5	Function returns the length of a string as an integer
len('Truth'+'is'+'best')	11	11	Function returns the length of the concatenated string as an integer
